SUBCOMMITTEE MEETINGS REPORT

Water Resources SubCommittee

Mr. Meismer, Water Resources Subcommittee Chairperson, presented a report for the Water Resources Subcommittee meeting held on February 19, 2009.

Ground Water Management – Variances – Requests – TGS Farms – Mr. Meismer reported that the TPNRD has received a request for a variance from TGS Farms. Mr. Meismer asked Mrs. Dimmitt to report on the request.

Mrs. Dimmitt reported that the TPNRD received a variance request from TGS Farms to transfer 24.04 certified irrigated acres from corners of an irrigated field in the SE¼ of Section 26, Township 13 North, Range 34 West, Lincoln County, to a pivot on the NW¼ of Section 26, Township 13 North, Range 34 West, Lincoln County. Mrs. Dimmitt reported that the transferred irrigated acres would be watered from the existing registered irrigation well G-061758, which currently irrigates the pivot. Mrs. Dimmitt reported that the new irrigated acres will either be added to the pivot or banked. Mrs. Dimmitt reported that the depletion factor of the irrigated acres in the SE¼ of Section 26 is 38%, and the depletion factor of the proposed irrigated acres location in the NW¼ of Section 26 is 41%. Mrs. Dimmitt reported that to compensate for moving closer to the river and to a higher SDF factor, 0.7 acres will be subtracted from the acres transferred (24.04 - 0.7 = 23.34 acres) to the new location in the NW¼ of Section 26 for a total of 160.7 acres (137.36 currently irrigated acres + 23.34 transferred acres). Mrs. Dimmitt reported that in the Directors’ Board meeting notebook was a map and an aerial photo of the area.

Mr. Meismer moved the Water Resources Subcommittee’s recommendation to the Board of Directors to approve granting a variance to TGS Farms to transfer 23.34 certified

irrigated acres from the SE¹/₄ of Section 26, Township 13 North, Range 34 West, Lincoln County, to the NW¹/₄ of Section 26, Township 13 North, Range 34 West, Lincoln County for a total of 160.7 acres to be irrigated in the NW¹/₄ of Section 26, Township 13 North, Range 34 West, Lincoln County as there would be no new irrigated acres and no new depletions to the stream and subject to TGS Farms providing the Twin Platte Natural Resources District proof of ownership. Mr. Schilz seconded the motion. The motion carried. (Motion #2)

Ground Water Management – Variances – Requests – McWha Industries Inc – Mr. Meismer reported that the TPNRD has received a request for a variance from McWha Industries Inc. Mr. Meismer asked Mrs. Dimmitt to report on the request.

Mrs. Dimmitt reported that the TPNRD received a variance request from McWha Industries Inc to transfer 4.1 certified irrigated acres from three corners of an irrigated field in the SW¹/₄ and the SE¹/₄ of Section 23, Township 13 North, Range 31 West, Lincoln County, to a corner system on a pivot on the W¹/₂ of Section 23, Township 13 North, Range 31 West, Lincoln County. Mrs. Dimmitt reported that the transferred irrigated acres would be watered from the existing registered irrigation well G-023668, which irrigates the pivot. Mrs. Dimmitt reported that the new irrigated acres will be added due to installing a corner system. Mrs. Dimmitt reported that two of the four corners are currently certified as irrigated, and will be partially dried up in addition to the 4.1 acres from the corners of the three smaller pivots directly to the south, to allow for the corner system to go around with no new irrigated acres. Mrs. Dimmitt reported that the pivot dealer said this corner system needs 165 acres. Mrs. Dimmitt reported that in the Directors' Board meeting notebook was an aerial photo of the area.

Mr. Meismer moved the Water Resources Subcommittee's recommendation to the Board of Directors to approve granting a variance to McWha Industries Inc to transfer 4.1 certified irrigated acres from the SW¹/₄ and the SE¹/₄ of Section 23, Township 13 North, Range 31 West, Lincoln County to the W¹/₂ of Section 23, Township 13 North, Range 31 West, Lincoln County to allow for a total of 165.0 acres to be irrigated under a pivot located in the W¹/₂ of Section 23, Township 13 North, Range 31 West, Lincoln County as there would be no new irrigated acres and no new depletions to the stream and subject to McWha Industries providing the Twin Platte Natural Resources District proof of ownership. Mr. Wiseman seconded the motion. The motion carried. (Motion #3)

Ground Water Management – Variances – Requests – Sadle Cattle Co – Mr. Meismer reported that the TPNRD has received a request for a variance from Sadle Cattle Co. Mr. Meismer asked Mrs. Dimmitt to report on the request.

Mrs. Dimmitt reported that the TPNRD received a variance request from Sadle Cattle Co to transfer 40.0 certified irrigated acres from the W½ of Section 26, Township 14 North, Range 36 West, Keith County to the NW¼ of Section 19, Township 14 North, Range 35 West, Keith County. Mrs. Dimmitt reported that these locations are within two miles of each other and have been run through COHYST cycle well. Mrs. Dimmitt reported that the new location of the transferred acres has a depletion factor of 88.5%, and the depletion factor of the current location is 86%. Mrs. Dimmitt reported that there is a 2.5% difference of where the acres currently are, and where they want to be transferred, so Sadle Cattle Co will be losing one acre in the transfer process. Mrs. Dimmitt reported that the total amount of acres allowed to be transferred is 39.0 acres. Mrs. Dimmitt reported that the old irrigation well will be modified to pump less than 50 gpm. Mrs. Dimmitt reported that there will be no new irrigated acres. Mrs. Dimmitt reported that in the Directors' Board meeting notebook was a map of the area.

Mr. Meismer moved the Water Resources Subcommittee's recommendation to the Board of Directors to approve granting a variance to Sadle Cattle Co to transfer 39.0 certified irrigated acres from the W½ of Section 26, Township 14 North, Range 36 West, Keith County to the NW¼ of Section 19, Township 14 North, Range 35 West, Keith County as there would be no new irrigated acres and no new depletions to the stream provided that the old irrigation well will be modified to pump less than 50 gpm and subject to Sadle Cattle Co providing the Twin Platte Natural Resources District proof of ownership. Mr. Schilz seconded the motion. The motion carried. (Motion #4)

Ground Water Management – Variances – Requests – Tony Beckler – Mr. Meismer reported that the TPNRD has received a request for a variance from Tony Beckler. Mr. Meismer asked Mrs. Dimmitt to report on the request.

Mrs. Dimmitt reported that the TPNRD received a variance request from Tony Beckler to transfer 130.0 certified irrigated acres from the S½ of Section 6, Township 12 North, Range 38 West, Keith County, to the NE¼ of Section 11, Township 12 North, Range 39 West, Keith County. Mrs. Dimmitt reported that these locations are within two miles of each other and have been run through COHYST cycle well. Mrs. Dimmitt reported that the new location he wants to transfer the acres to has the same depletion factor, so he will be transferring the acres at a one-to-one ratio. Mrs. Dimmitt reported that he is also requesting to drill a new irrigation well at the new location so he can install a pivot using

TWIN PLATTE NATURAL RESOURCES DISTRICT
Board of Directors Meeting Minutes – February 19, 2009

this new well. Mrs. Dimmitt reported that he is drying up the entire 130.0 acres. Mrs. Dimmitt reported that he will abandon the old irrigation wells currently irrigating the certified irrigated acres. Mrs. Dimmitt reported that there would be no new irrigated acres. Mrs. Dimmitt reported that in the Directors' Board meeting notebook was a map of the area.

Mr. Meismer moved the Water Resources Subcommittee's recommendation to the Board of Directors to approve granting a variance to Tony Beckler to transfer 130.0 certified irrigated acres from the S½ of Section 6, Township 12 North, Range 38 West, Keith County, to the NE¼ of Section 11, Township 12 North, Range 39 West, Keith County as there would be no new irrigated acres and no new depletions to the stream and that a new well may be installed provided that the old irrigation well is properly decommission and subject to Tony Beckler providing the Twin Platte Natural Resources District proof of ownership.
